

Cloud Advisory Services

Accelerate your journey to cloud

Cloud is accelerating enterprise transformation, and it is must-have business technology. Gartner predicts “Infrastructure-as-a-Service (IaaS), currently growing at a **23.31% CAGR**, will outpace the overall market growth of **13.38%** through **2020**”¹. Forrester predicts “More than **50%** of global enterprises will rely on at least one public cloud platform to drive digital transformation and delight customers”².

- Have you selected the cloud environment to achieve your business goals?
- Do you know which applications you should move to the cloud and how?
- Who owns the data? How safe is it in the cloud?
- Do you know which cloud configuration is best suited for your organization?

Trigent is an industry-leading cloud service provider with a focus on digital transformation. Leveraging our industry expertise, we successfully lead businesses through the cloud adoption process. As certified AWS and Azure partners, we provide comprehensive advisory solutions for organizations.

Our offerings

Cloud Strategy & Design

Cloud Readiness Assessment

Cloud Cost Estimation

Hybrid Cloud Operations Plan

We assess your current IT infrastructure, the applications you use, costs and resources. We identify the workloads which can benefit from moving to cloud. We help you adopt a cloud first strategy and deployment models. Then, chart out migration roadmaps with minimal disruption time.

Benefits

- Define and implement your transformation plan with minimal business disruption
- Conceptualize, build an implementation roadmap
- Prioritize the workload to be migrated
- Accelerated cloud deployment
- Estimate the viability of your business case and optimizing costs
- Identify opportunities to reduce infrastructure cost
