

Cloud Cost Optimization Services

Empowering you to reduce cloud spending

Industry research shows that companies are paying an average of **36%** more for cloud resources than they need to. Gartner predicts over **\$62B** may be saved globally by optimizing cloud workloads and cloud resources.

- Are you aware of your infrastructure costs?
- Do you have visibility into your cloud spend?
- Are your cloud resources fully utilized, all the time?
- Do you have the process and tools to control costs across all the cloud providers you use?
- Have you chosen the right cloud services without blowing your IT budget?

Trigent is an industry-leading cloud service provider and we enable your infrastructure to keep pace with the digital future through our value added services:

380+
Pre-built Checks

You can optimize your
cloud spend and reduce
OpEx by **30%**

We analyze your current utilization and spend to gain deep insight. And using best practices, we prepare an optimal cloud consumption model. We present our finding and recommendations through easy to follow reports and dashboards. You can have your IT team implement the recommendations, or we can do them. You will gain great cost savings on your purpose-built cloud infrastructure.

As certified AWS and Azure partners, we provide the best solutions for cloud cost management, cost aggregation, optimization, forecasting and reporting.

Key Benefits

- Real-time visibility into public cloud spending to avoid cost overruns and make informed decisions.
- Greater accountability for what is purchased and used across teams that are consuming cloud services.
- Optimized purchase and usage decisions to avoid over payment and under-utilization.
