

Disaster Recovery as a Service

Protecting all your data and systems at a fraction of cost

Data is the fuel of the modern business. The value of data makes it even more critical for businesses to protect. Gartner states a business that has a catastrophic data event has a **2 year** survival rate of just **6%**.

- How much downtime can you afford? How quickly do you need to failover?
- How often do you test your DR?
- How do you manage failback (data shipping, reverse replicate)?

Trigent is an industry-leading cloud solution provider backed by state of the art technologies with over two decades of experience in the field. We ensure that your business critical process and applications are back on track even in the worst of times.

Features

Flexible data capture

Regulatory compliant data archiving

On-site and Off-site storage

Short RPO¹ and fast RTO²

End-to-end encryption

Automated DR testing

82% of significant network disruptions can be reduced by implementing the most rudimentary data recovery and business continuity processes – *CDW Research*.

Benefits

- **Flexible Recovery and Rapid Failover:** Helps to bring your business back to life in minutes with less hardware, complexity, and training costs.
- **Multi-tenant:** Leverage shared clusters and storage for protecting multiple applications from multiple locations.
- **Ransomware Mitigation:** Helps you quickly recover operations by restoring a clean, uninfected version of your application and systems.
- **Near zero RTO:** Recover in the amount of time it takes to boot your operating system without impacting ongoing replication and workloads.

“Almost” isn’t good enough during a disaster. With risk assessments done, SLAs in place, we frame the business continuity and data recovery plan into a real-world offering that protects your business.

About Trigent

Trigent is a technology solutions company that provides comprehensive solutions for business problems via outsourced software product and applications design, development and quality assurance. Trigent serves customers like Independent Software Vendors (ISVs), enterprises and SMBs in the High Tech, Healthcare, Education, Ecommerce and Manufacturing areas.

¹ Recovery Point Objective(RPO)

² Recovery Time Objective (RTO)
